EXPERIENCE IN INDUSTRIAL DEVELOPMENT

经验丰富的工业发展商

Banting Industrial City (BIC) is located in Banting, a major town of Kuala Langat District, Selangor. Situated on the banks of Langat River, Banting is home to rich agricultural resources and established industrial estates.

Aligning with Malaysia's vision to promote economic growth and drive industrial development, the 1,253-acre BIC is conceptualised to accelerate the pace of industrial transformation by capitalising on the vast experience of Lion Group Property (LGP) as the country's pioneering industrial park developer, and setting a conducive industrial growth provided by the state of Selangor.

BIC offers strategic location, integrated infrastructure, sustainable environment, streamlined industrial solutions and support for international investors, making it an industrial community of choice as the nation accelerates the momentum of its industrial growth.

万津工业城 (BIC) 位于雪兰莪州瓜拉冷岳县的主要城镇万津；万津地处冷岳河河岸，农业资源丰富，也有不少运营已久的工业设施。

占地1,253英亩的万津工业园由国内工业城的先驱开发商金狮集团-房地产支部开发。工业园概念符合马来西亚推动经济增长和工业发展的愿景，加快工业转型的步伐，并受惠于雪兰莪州有利工业发展的环境。

万津工业城的有利地理位置、周全基础建设、永续发展环境，以及为国际投资者提供的简化工业解决方案和支援，势必在国家加快其工业发展的前提下，成为首选的工业区。

ABOUT LION GROUP PROPERTY

Decades of remarkable achievements exemplifying building innovation and excellence with an impressive line-up of notable projects across the field of property development

Guided by a vision in “Developing Properties that Inspire Lives”, Lion Group Property fulfils the aspiration of buyers, investors and the communities with distinguished and award-winning development projects that bring inspiration to our everyday life.

Staying relevant in a fast-changing world, we are committed to shaping trends of property development across all sectors. This self-entrusted mission has seen us achieving some of the industry’s most notable milestones, including the first condominium in Penang, the first serviced apartment in Melaka, and the first award-winning private industrial park in Malaysia.

Living up to the reputation as a trusted and pioneering developer, Lion Group Property delivers properties with exceptional value, high quality and growth potential, be they for residential or commercial use. To date, Lion Group Property has developed 13 townships with some 34,000 completed units throughout the country, cementing its position as one of the key developers of large scale mixed-use projects in Malaysia.

Currently, we are venturing into exciting new projects and adding value to existing ones. This reiterates our promise in achieving value, quality and growth with world-class properties that enrich the lives and attain the goals of our customers, fuelling progress along the way. It is in celebrating the success of our customers that we celebrate ours.

Moving forward, we will continue to take large strides and stay attuned to the lifestyle of today’s world.

“ DEVELOPING PROPERTIES THAT INSPIRE LIVES

As one of the most established and trusted developers in Malaysia, Lion Group Property has built a legacy of distinguished projects over more than three decades. Award-winning properties bearing the Lion imprint stand tall in Malaysia and abroad.

We are making even bigger and bolder steps ahead to not only celebrate this remarkable journey of excellence, but also stay at the forefront of the industry. With the strong backing of the Lion Group, Lion Group Property is leading the way forward with property projects that address changing needs and evolving aspirations in a fast-paced world. A pioneer as we have always been, we are shaping new concepts and transforming them into landmarks of the future.

Straits Sanctuary in Melaka is set to open new dimensions of wellness living. When completed, it will be a landmark attraction and destination of choice of the region and beyond. Wellness is complemented by world-class residence, retail, entertainment and hospitality in this iconic development. Featuring heritage-style enclaves reflective of Melaka’s rich history and culture, it is also home to some of the finest modern architecture, lifestyle possibilities and health facilities.

Riding the Industry 4.0 wave is Banting Industrial City, a landmark industrial hub that is designed to propel productivity, sustainability and growth. More than a venue for industrial set-up and activities, it sets the benchmark of industrial parks with its wide range of strategic and infrastructural solutions, benefitting industries of all sizes as they increasingly adopt technologies and new modes of operation to keep ahead of the competition.

As we embark on new projects that take us to a whole new level, we are also pushing the frontiers of ongoing ones, noticeably four upcoming freehold residential developments and a 58-acre public green area at Bandar Bukit Mahkota Bangi and an 8-acre luxury condominium in Taman Supreme Cheras, Kuala Lumpur.

Over the years, we have completed projects across the spectrum of property development, including townships, high-rise residences, office towers, shopping malls, industrial parks, and golf courses, resorts and hotels. It is an unwavering commitment to deliver excellence that has made Lion Group Property a proud recipient of major accolades and honours of the industry.

We were honoured at the 5th annual PropertyGuru Asia Property Awards (Malaysia), 2018 with the Best Landed Development Award (Klang Valley) and the Best Landed Development (Malaysia) Award (Crescent Park, Bandar Bukit Mahkota Bangi, Selangor). Lion Group Property also received Special Recognition for its CSR initiatives at the same award presentation.

Other awards we have received over the years include the 1993 FIABCI Award for the Best Industrial Park (Lion Industrial Park, Shah Alam, Selangor); the 1991 TDC Award for Malaysia’s Best Shopping Complex (Subang Parade, Subang, Selangor); the 1994/95 TDC Award for Malaysia’s Best Shopping Complex (Mahkota Parade, Melaka); the multiple-award winning golf course named by Golf Digest Magazine as one of Planet Golf’s Top 10 Golf Courses in Malaysia for 2011 (Tiara Melaka Golf & Country Club, Melaka); the Asia Pacific Residential Property Award for Best High Rise Architecture, Malaysia 2010 (Twins at Damansara Heights, Kuala Lumpur); and receiving FIABCI-Malaysia’s ‘Property Man of the Year’ award in 2006.

Meanwhile, we are extending our overseas reach further, building on our track record in Singapore, China and Vietnam, while actively making inroads into other ASEAN countries such as Cambodia and Laos.

As we move forward, we turn possibilities into realities that inspire the future. It is a legacy that we celebrate, and are committed to build on for years to come.

NEW PROJECTS IN FOCUS

Embracing insightful new concepts,
these development projects fulfil
evolving aspirations in life and in business.

BANTING INDUSTRIAL CITY, SELANGOR

Aligned with Malaysia’s vision to embrace Industrial Revolution 4.0, Banting Industrial City (BIC) is conceptualised to drive this dynamic shift that is poised to transform the way in which industrial activities are conducted.

BIC offers strategic location, streamlined industrial solutions, integrated infrastructure, sustainable environment, international investors support, and safety and reliability, making it the benchmark for a sustainable industrial community as industries accelerate their growth momentum.

ONE OF THE LARGEST PRIVATE INDUSTRIAL DEVELOPMENT IN MALAYSIA, BANTING INDUSTRIAL CITY IS AN EVOLUTION OF IDEAS, DESIGN AND SPACE FOR THE SMART INVESTORS.

STRATEGIC LOCATION

A 20km drive from the Kuala Lumpur International Airport (KLIA), 35km away from Port Klang and 50km from downtown Kuala Lumpur, BIC is well positioned to capitalise on cost, energy and time-saving connectivity solutions. Private jetty facilities enable investors to maximise the usage of Langat River as an optional transportation mode, in addition to highway, airport, port and rail links.

STREAMLINED INDUSTRIAL SOLUTIONS

BIC caters to industrial scale varying from light to heavy. Attention is given to logistics that go beyond individual plots to achieve cost efficiency, operational optimisation and human well-being, delivering smart space planning and work-life balance alongside a clean and green environment.

INTEGRATED INFRASTRUCTURE

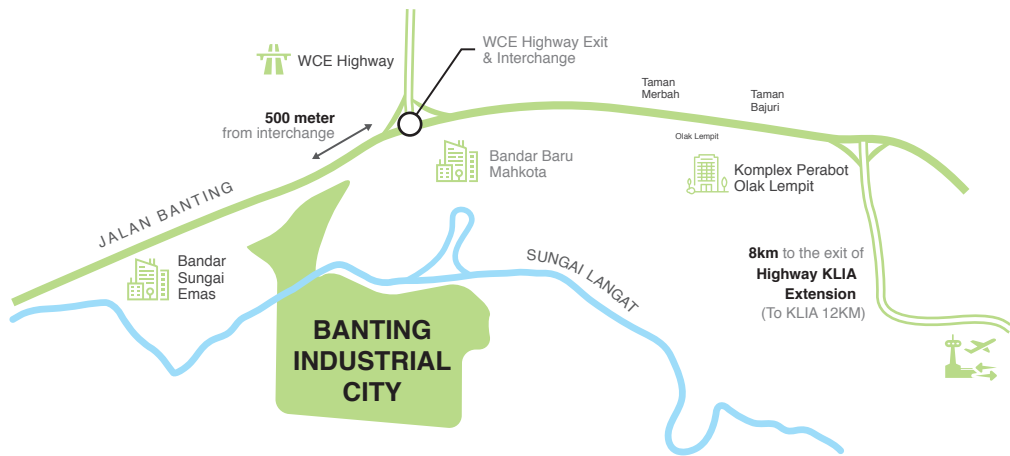

BIC comes with a 132 feet wide dual-carriageway. Infrastructure facilities that benefit industrial operations include high-voltage power supply, treated water, telecommunication system, gas pipeline, link bridges, and natural resources such as underground water, close to river, an advantage not all industry parks can offer.

SUSTAINABLE ENVIRONMENT

Designed to be a work-and-live community with reduced environmental and social impact, BIC offers a host of amenities including neighbourhood shops and public facilities. Playground, landscaped parks and waterfront gardens are welcome respite to a day at work, while installation of bicycle lanes promotes mobility and a healthy lifestyle in one prime industrial address.

INTERNATIONAL INVESTORS SUPPORT

International investors setting up operations at BIC will be given full advice and assistance, including important information on regulatory requirements and business registration procedures.

The concept of wellness is fast gaining traction the world over. Taking this trend to exciting new dimensions is Melaka Wellness City (MWC), a 37.2-acre development conceptualised to bring wellness living to a whole new level.

Drawing inspiration from Melaka, a UNESCO world heritage site and a popular tourist destination, MWC celebrates health and wellness, history and heritage, and leisure and pleasure with a host of cultural, recreational, health and hospitality options, complete with green golf views. Rethinking wellness, MWC is broadening the horizons of a preferred and fulfilling lifestyle.

Health and Wellness

The MWC master plan features wellness residences and a wellness retreat with a medical centre and spa, offering a balance of advanced medical therapy and traditional herbal remedies. Beautiful gardens at the wellness retreat encourage reconnection with nature and facilitate recuperative and restorative therapy.

History and Heritage

The thematic retail enclave at MWC pays homage to grand mansions of yesteryears with layout and design inspired by Melaka’s colourful past, rich heritage and tropical flavour, enhancing MWC’s attraction as a popular destination for local and International visitors while promoting the appeal of historic Melaka.

Leisure and Pleasure

MWC is also home to a multi-storey shopping mall with a host of dining, entertainment and lifestyle choices, along with an enclave of retail outlets offering premium local products and immersive food experience. The Landmark Plaza, with a vast sense of space and a grand impression, is poised to become a focal point of MWC.

Green and Serene

An iconic hotel and serviced apartment tower promises a green vista stretching out as far as the eye can see for those enjoying a short wellness getaway, while wellness residences provide an ideal option for those who want to enjoy a wellness lifestyle on a long-term basis.

MINING

The Group made its foray into the mining industry with exploration and prospecting work in a few countries. It has started sand mining on its 2,000-acre piece of land in Banting, Selangor, to be followed by silica and tin later. Its strategic location with close proximity to the majority of its customers in the Klang Valley and to the ports offers competitive advantages and lower transportation costs.

STEEL

With its integrated steel facilities, the Group is a major producer of a wide range of steel products catering to the nation’s infrastructural, construction, engineering, fabrication and manufacturing needs. Its upstream iron making operations convert iron ore into high-purity Direct Reduced Iron (DRI) and Hot Briquetted Iron (HBI) for supply as feedstock to the Group’s steel making and rolling operations. The group is establishing an integrated Blast Furnace project to produce liquid hot metal for making high quality steel.

FINANCIAL SERVICES

Parkson Credit is involved in the consumer financing business and provides financing for the purchase of household appliances and motorcycles. It has achieved ISO certification, Shariah compliance and been granted a Moneylending license.

OTHER BUSINESSES

Other businesses involve the manufacturing of electronics and computer peripherals under Likom group in Melaka, and a sales office in USA; oil palm plantations covering about 35,600 hectares in Malaysia, Indonesia and Cambodia; trading of building materials, automotive components and petroleum-based products under the Hi-Rev and T-Trax brands by Posim; provision of total integrated 24-hour security services with both electronic and physical security systems by Secom; and CeDR providing competency-based learning and development services to train and develop the human capital in the country.
